

All we need is a HERO...and another....and another.....and another.....

Help us save Graham's life.

Graham is husband to Samantha, father of Jack and Poppy, and my Brother in Law. He has been diagnosed with Acute Myeloid Leukaemia (AML). He has undergone two bouts of chemotherapy to date and is now in desperate need of a Bone Marrow Transplant.

As Graham cannot find a Bone Marrow match his only option is to try a **Double Cord Blood Transplant**. This is a procedure that is relatively new and also a procedure that has not had much success here in Australia, the survival rate is 30%.

There is another option. The Fred Hutchison Cancer Centre in the United States also does this procedure and their results are vastly superior, a 90% survival rate. There is a catch of course; we need money, and a lot of it. We need to raise in the vicinity of \$500,000 US, in a very short time.

THIS IS WHERE YOU COME IN.

Please help save Graham's life by donating whatever you can, whether it be \$1 or \$20, so that we can get him to the US next month for this life saving procedure. We need to raise the \$500,000 by this Friday, the 14th of April, as Graham needs to make his final decision about what he is to do then.

All you need to do is visit Graham's website, www.adonorforgraham.com, and click **DONATE**.

You can also read more about Graham illness on his website, or visit his facebook page, and find out about the person, and the family, you are being a hero for.

Thank you for reading and thank you for helping. Please fwd this to all of your friends as the more people who read this the more heroes we can find.

Any funds that Graham does not use will be donated to the Organizations that support Leukaemia sufferers in Australia, the UK, the USA and Canada, so if you are not helping him you are helping someone else in great need.

please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd, please fwd,

Kind Regards,

Damian MacRae
